2. Dogs

All dogs must be available for physical examinations before the start of the race. Drivers must start the race with not less than 8 dogs and not more than 10 dogs. Drivers must finish the race with not less than 6 dogs.

No drugs or other artificial means may be used to drive a dog beyond its natural ability. A vet may randomly collect and test blood and urine samples at any time during the race to determine the presence of prohibited drugs. It will be the driver's responsibility to assist the vet in collection of these samples. **BEFORE the start of the race, the vets must be notified of any dog receiving prescribed medications.**

The following drugs are permitted:

- Topical medications (except DMSO)
- Dewormers
- Antibiotics (except procaine penicillin)

All other drugs are prohibited.

All dogs will be marked before leaving the starting line.

At the pre-race check, any dog, which in the opinion of the examining vet should not run the race, shall not run the race. All dogs entered in the race must be current on DHPP, leptospirosis, and rabies vaccinations. Only the Race Marshal acting in agreement with a vet can force the dropping of a dog.

Drivers are expected to pay extraordinary veterinary expenses they accrue during the race, including all costs related to emergency evacuation of dogs for veterinary care. Prize money will be awarded minus any unpaid veterinary expenses incurred by the driver.

Treatment of dogs

Whips of any kind or the use of brush, branches or any object as a whip or to create a whip-like noise is expressly prohibited.

Cruel or inhumane treatment of dogs will result in the immediate expulsion of the driver. The race committee, Race Marshall or judges in conjunction with a veterinarian will have absolute determination regarding the cruel or inhumane treatment of dogs.

Any dog that expires for any reason during the race shall be completely covered in a sled bag and taken to the next checkpoint official. A necropsy will be performed at the driver's expense. The death of the dog may result in the disqualification of a driver.

B. Race Marshal and Officials

The Race Marshal shall resolve disputes among drivers and interpret the race rules in regard to infractions and penalties. He/she shall also have the authority to establish rules to cover special or unforeseen situations. Race judges will act as deputies of the Race Marshall.

C. Trail

1. Race Course

Trails will be broken, groomed, and marked before the races. However, due to weather, there is no guarantee of a broken trail during the race.

Irving Woodlands Eagle Lake 100 Race trails are designed to minimize road crossings. The race course may be re-routed as conditions require. All teams must follow the trail as marked or as redirected by trail officials.

2. Sportsmanship

The rigors of this race and the history of the sport require that each competitor be courteous, helpful and honorable to a degree that will inspire participants and hosts alike to a concern for the welfare of all. Conduct yourself well enough that the next driver will be welcomed with equal hospitality. Rude and/or inappropriate behavior by drivers or handlers may result in a penalty.

If a driver or his/her agent tampers with another's dogs, food or gear, then the driver will be disqualified.

An overtaken driver and team must relinquish the trail at the request of the overtaking driver by stopping the team and staying there until the rival team has completely passed, except within one mile of the finish line. The overtaken team must avoid “leapfrogging” by not passing the rival team for a minimum of 10 minutes or one mile.

Drivers resting or untangling dogs must clear the trail, making passage safe for other teams.

No litter of any kind shall be left on the trail.

Drivers must not litter the trail with food or other items with the deliberate or unintentional result of distracting following teams. If the Race Marshall determines that a musher’s trail litter was detrimental to following teams a time penalty or disqualification will be imposed.

Any driver who uses ski poles must stop poling and place the poles in or on the sled whenever his/her team is within 100 feet (30 meters) of another team. Failure to do so may result in a time penalty.

3. Assistance

The spirit of this race dictates that drivers be self-sufficient. Therefore drivers should not help each other except to ensure safety and animal welfare. A driver will not be penalized for helping another driver whose safety is endangered or for helping to recover a lost team.

No assistance which would result in a competitive advantage may be solicited or accepted.

Between the checkpoint drivers may not accept assistance from any typed of motorized vehicle, **except to recover a lost team**. Drivers are encouraged to solicit or accept any available help recovering a lost team. However, if the Race Marshall determines that a musher has thereby gained a competitive advantage, the Marshall may impose an appropriate time penalty.

Pacing with snowmobiles is prohibited.

Personal handlers will not be allowed at the checkpoint unless requested to pick up a scratched team or dropped dogs.

4. Teams Tied Together

Two or more teams may not be tied together in any way, except to assist a driver in trouble at some immediate location. The drivers of any teams so involved must notify race officials at the next checkpoint.

5. Loose Dogs/Lost Teams

There will be no loose dogs. All dogs will be either on the towline or in the sled. Dogs hauled in the sled must be hauled in a protected, humane manner. A driver must make immediate efforts to secure a dog which becomes loose.

A lost team will not be disqualified if the driver regains control, provided that the entire race course is covered by both team and driver. A driver may accept help from another driver in recovering his/her team however, a time penalty may be imposed if the musher gained a competitive advantage.

6. Switching Dogs

Dogs shall not be switched between teams after they have officially left the start line.

7. Driver’s Report: Rule Violations and Safety Problems

It is the duty of each driver to report trail safety problems and violations of these race rules in writing. Such reports can be requested from and presented to a race judge at the checkpoint or finish. The race judge will gather information and relay it to the Race Marshal for action.

Failure of a driver to comply with the race rules will result in disqualification or time penalty as assessed by the Race Marshall.
